

# AMBLE LINKS FIRST SCHOOL

## SHARKS SUPER NEWS 6

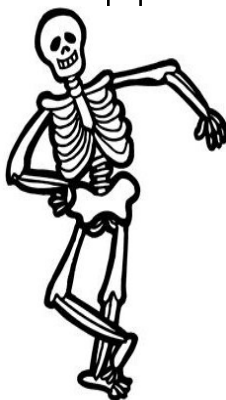

**Summer 2 2015**

### Mathematics

The Sharks are storming ahead in the Mathletics league, a huge well done to all of the children who have contributed to our success. Keep it up!

This half term we will be continuing to use our skills and knowledge in maths and applying these to solve a variety of real life problems linked to money, shape, time. Please keep working on times tables at homes. There are a range of online games which the children love to use within the classroom– check out [www.topmarks.co.uk/maths-games/7-11-years/times-tables](http://www.topmarks.co.uk/maths-games/7-11-years/times-tables)

### Funny Bones

This half term we will be completing our science based topic Funnybones.

We will be investigating skeletons and looking closely at bones, joints and muscles and comparing them with animal skeletons. We will exploring the effects of exercise on our bodies and recording what we find out.

There are lots of great activities linked to the human body for you to try on Purple Mash– the children have loved this topic so far!

### From Source to Sea

Our main topic this half term will have a strong Geography focus. We will be thinking about contrasting locations, we will firstly be looking at the locality that we live in and comparing this to another seaside location in a different part of the world. We will use a range of media including maps, photographs and the Internet as well as collecting their own evidence to compare location, weather, population, transport links, tourism and physical features. In our Literacy work we will be becoming travel agents and tour guides and

creating holiday guides which will persuade people to visit Amble. You can help by collecting any local leaflets and photographs as well as visiting any local landmarks!

### PE

This half term we will be having PE on a Wednesday. Over the next few weeks the children will be learning the skills needed to play a striking and fielding game, such as catching, throwing, bowling and batting to acquire. We will be building up to playing a game of rounders which is bound to be fun! We will of course be practising for Sports Day!

### French

This half term the children will be learning about different parts of the Human Body in their French work. Why not visit <https://www.youtube.com/watch?v=0EFXCdryyRM> and see if you can learn 'Head, shoulders, knees and toes' in French. There are also loads of great games on Purple Mash that you could play online at home.

### Homework

Projects linked to last half terms topic of Jack and the Beanstalk can be brought into school from next Monday 8th June. We look forward to seeing them all!

Please keep going with weekly homework tasks, many of the children have been getting 4 out of 4 in their spelling tests! Well done and keep it up.
