Communication, Literacy and Language Development

The Turtles will be doing lots more sentence work. They will use story maps to help re-write stories. We will be talking about books and how we use them to find information.

The Seahorses will be listening to nursery rhymes and poems and matching sounds. We will continue to share stories at school, it will be nice for all children if you continue to share stories at home as well.

Problem Solving Reasoning and Numeracy

The Turtles will be adding and taking away practically and recording number sentences. There will be lots of opportunity to solve problems around the unit.

The Seahorses will do lots of counting, sorting and number recognition. At home you could encourage them to find numbers in the environment.

Creative Development

We will be doing lots of colour mixing and painting in the outdoors. We are going to be making different pictures using water. We have a new junk music area outside where we will be beating rhythms using pots and pans.

Personal Social Development

We will be having discussions about how we have changed and matured through the Foundation Unit. We will be preparing the Turtles for their transition into Key Stage. The Seahorses are learning what they will need to do to be in Reception. They will get to meet new September Seahorses.

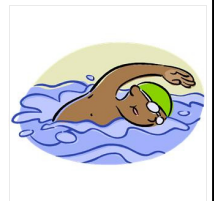

Knowledge and Understanding of the world

We will be in the outdoor area and in our new digging area, using magnifying glasses and collecting pots to look at insects we might find. You can encourage the children to look in their own gardens and share what they find.

We are going to discover all we can about the water around us. We will become little scientists and investigate water, where it comes from, where it goes and how we use it.

Physical Development

We will continue to following Action Kids Games Programme this half term in our colour group. We will be following the Olympic Values as we practice our sports.

Turtles remember your P.E kits and leave them in school.
