

AMBLE LINKS FIRST SCHOOL

SHARKS SUPER NEWS 3

Spring 1 2015

Mathematics

We will be covering lots in our daily maths sessions including:

Arithmetic: Place Value, finding 1, 10, 100 more and less than, doubling and halving, Fractions, multiplication and division.

Data and Measure: Measuring length/height using standard measures such as cm, m, and solving problems linked to money and measure.

Geometry: 2D and 3D shapes and their properties.

Please continue to access Mathletics each week to complete set tasks and also earn points and certificates

PE

This half term we will be working alongside an FA football coach. These sessions will be taking place outside. Please make sure that the children all have a warm outdoor PE kit, including hat, gloves and old trainers/ football boots

Please make sure that PE kits are in school all of the time. PE will be on a Thursday, please ensure that all jewellery is removed.

French

There are lots of activities on Purple Mash which the children can access at home to practice their French including our new topic of colours. Why not have a French colour hunt around the house?

Homework

Please continue to support with homework each week. We have an exciting new program similar to Mathletics which has been introduced to the children called Spellodrome. The children access this using their Mathletics log ins. Using Spellodrome will help the children to develop their confidence with spelling which we hope to see this being transferred into their work.

'To Infinity and Beyond' and 'Digging Up the Past.'

This half term we will be having 2 shorter topics.

Firstly we will be learning about Space through Infinity and Beyond where we will be learning about the Solar System and historic events linked to Space such as the moon landings.

Later we will be learning about and investigating The Stone Age and thinking about how life would be different living at this time. We will be making tools and investigating any signs of the Stone Age which still exist now such as Stonehenge.

The children all have access to Curriculum Vision which has some great texts, video clips and photographs which will support with both of these topics. www.curriculumvision.com

PSHE

We will be thinking about how each of us are different and unique in our own way. You could spend some time at home talking about your child's own individual strengths.
